Sr. Citizens Home Largest

Several Building Projects Scheduled In Near Future

Considerable construction activity will be taking place in Vulcan during the next year, with the largest project, of course, being the Senior Citizens Home. Sub-contract tenders have been called by general contractors Sam Hashman Co. of Calgary and work is expected to get under way early this fall.

Two other projects expected to get under way this fall are a new building for the Canadian Imperial Bank of Commerce and a new operations building for the Alberta Government Telephones. The new Bank of Commerce building will be of modern, one-storey construction and will be erected on the same site presently occupied by the bank, on Centre Street. The present two-storey, frame bank building will be torn down and while the new building is being constructed the bank will carry on business from the now vacant next-door premises formerly occupied by Jenkins Groceries. No firm date has yet been set for the start of construction. Tenders were called last week for the construction of a 49x38 ft. masonry telephone building at Vulcan. The Vulcan changeover to the dial system of telephones is scheduled for next May.

Planned for 1964 is a new post office building to provide facilities to allow greater use of Vulcan as a mail distribution point. Location of the proposed new post office has not yet been settled.

Largest current construction project in town is the enlarging and complete renovation of the Vulcan Supply Co. premises and the construction of a new building for the next-door Robinson Stores.

Books Presented To Vulcan Library

To commemorate Vulcan's 50th Anniversary, the Cottonwood Good Deeds Club has presented two volumes of Winston Churchill's biography to the Vulcan Municipal Library.

The two books are "The Years of Preparation" and "The Years of Achievement."

Visits Birthplace In Bruce County

Friends of Mr. and Mrs. J. D. Hagerman of Calgary, formerly residents of the Vulcan-Champion district, will be interested to learn that they have just returned from a 6,600-mile motor trip which took them to the former's birthplace of Bruce County, Ontario, referred to by Mr. Hagerman as "the garden spot of Canada." They report that en route home the crops through Manitoba, North Dakota and Saskatchewan were wonderful and the well-kept farms in the Red River Valley in Manitoba were "as a dream."

low crop can be prevented by keeping the fields being fallowed unsuitable for egg-laying this fall. To accomplish this, all weed growth should be destroyed late in July and the fields then left undisturbed throughout August and the first half of September, when the moths are laying eggs. Rains occurring after the late July tillage will form a crust on the soil surface. Moths will not lay their eggs in fields that are crusted. Disturbance of the crust by allowing livestock to pasture or run on the field may be as serious as if the field had been worked.

On the medium soils the crust formed by rain will remain unbroken for long periods unless disturbed by livestock or implements. However, on some of the heavy soils the crust may break down after a period of dry weather. Where these soils occur, complete prevention of egg-laying may be obtained only if there are rains at intervals during the egg-laying period in August and September.

When the summerfallow fields are well worked during the early summer and the weeds are destroyed as late in July as possible, subsequent weed growth normally will not be sufficient to require tillage during the period August 1 - September 15. When the pale western is the chief cutworm species, the surface crust should not be disturbed by tillage, even if weed growth does develop.

This method of preventing damage and increase in infestation by the pale western cutworm should be followed this season in an area bounded on the west by Del Bonita, Fort MacLeod, Vulcan, Three Hills and Castor in Alberta, and on the east by Val Marie, Swift Current, Rosetown and Biggar in Saskatchewan. The northern limit runs westward from Biggar through Luseland to Castor.

Three young members of the Allan Fath family joined the 50th Anniversary kiddies' parade in a most normal manner to them... on horseback. Their colorful matching outfits and the beautiful Palomino colt providing a delightful addition to the parade. Cheryl Gooch is shown keeping the horse in check. Holding the reins is eight year old Donnie. Behind him are Susan, four and Jerry, seven.

Ray Wellman Tops In Foothills Golf Tournament

Two perennial winners of the annual Foothills Golf Tournament again won the championship flights at Staveland last weekend when Ray Wellman of Vulcan and Edna Leflar of Staveland took top honors at this year's holding of the Foothills tourney.

For Wellman it was his fifth win in the past seven years when he defeated Herb Berke of High River 3 and 2 in the 18 hole final. Mrs. Leflar won over Sheila Healey of Turner Valley to add to the many times she has copied the ladies' laurels in this tournament.

NO IMPROVEMENT WITH AGE

Most medicines become dangerous with age as their potency and strength increase. Therefore, they should not be preserved after their present use is finished. As soon as they are no longer on regular prescription, liquids, pills and capsules should be destroyed, flushed away in preference to tossing them in a waste container where children could salvage and swallow them. A small dose of medicine prescribed for an adult could, in some cases, poison a small child.

Annual Reunion Of McFarland Family Held

The second annual McFarland Round-Up took place this year July 6, west of Bowden at Red Lodge Park. A picnic dinner was served at one o'clock; 73 relatives sitting down to eat.

This year forms the centennial for John Henry McFarland. He was born in Missouri one hundred years ago this year, raised in Kansas and set up house keeping in Nebraska when he married Mary Eliza Denton, an Oblin college graduate, who came from Ohio to keep house for her father, George Denton who was teaching school in Nebraska.

While the McFarlands lived in Elba, Nebraska three children were born to them: Frances (Mrs. John Duguid); Margaret (Mrs. Charlie Steiner), both deceased; and Lee C. McFarland of Penticton, B.C.

Around the year 1893 Oklahoma state opened up the Cherokee strip to settlers. Mr. McFarland rode down on the spurring gears of a wagon to get in the land race. He built his home where the town of Nardin later sprang up.

While they lived there five more children were born to them: Elizabeth (Mrs. Harry Jones, Olds Al-

Dinton Fastball Team Advances In Playoffs

Dinton Bears are still in the thick of action in the central section of the provincial intermediate "B" fastball playoffs. Of 12 teams entered in the playoffs, Dinton is one of the three teams remaining.

Dinton's first playoff series was against Alberta Trailers (Calgary), July 14 at Dinton and July 21 at Calgary. In the playoff series it is the best two out of three games, with four games being played of which the second game is always an exhibition contest. Alberta Trailers won the first two games at Dinton by scores of 6-3 and 10-7. Dinton came back at Calgary to win both games and the series by scores of 12-6 and 5-4. The last game went an extra inning, being tied 3-3 in regulation time.

On July 28 Dinton Bears played at Rimbey and lost both games, 12-1 and 9-5. Rimbey played at Dinton on August 4, with Dinton winning both games, 12-6 and 8-4. Dinton scored seven runs in the fifth inning, with a bases-loaded double by Don Seney bringing in three runs.

A draw will be made to see which of the three remaining teams gets a by into the central section finals.

1" to 2" Over County

Heavy Rain Last Week Greatly Helps Crop Outlook

A timely, heavy rain Wednesday night and Thursday morning of last week was fairly general over the entire County area and brought sufficient moisture to assure proper filling of crops.

In Vulcan 1.74 inches was registered, at Milo 1.45, at Arrowwood almost an inch and Champion and Carmangay report almost two inches. The Reid Hill to Lomond area reported an inch and a half to two inches.

Farmers are very pleased with the rain, which will assure an average or better-than-average crop in most districts. The hay crop, which at first was expected to be quite light, has been a pleasant surprise this year as the heavy and timely rains since June, interspersed with hot, sunny days, has resulted in good growth.

Crops in the Reid Hill and other districts that did not look too good just a month ago have recovered very well as a result of the plentiful moisture and will show good yields.

Along with the usual threat of hail there is some fear of possible frost damage this year, as crops are a bit late and it is unlikely that much swathing of spring wheat will be done before the last part of this month or early Sept.

A small hailstorm last Tuesday afternoon caused damage on at least three farms southwest of Vulcan.

PALE WESTERN CUTWORM FORECAST FOR 1964

A cutworm forecast for 1964, prepared by L. A. Jacobson and H. McDonald of the Canada Agriculture Research Stations at Lethbridge and Saskatoon, respectively, indicates that infestations of the pale western cutworm will occur again in the prairie region. Some reduction in severity is expected because of increased rainfall during May and June of this year. Infestations of the red-backed cutworm are expected to be light and spotty. This forecast is based on surveys of cutworms, reports of damage, and rainfall recorded in May and June.

Brother! Am I glad I bought Investors Mutual

Since 1950, this man's investment in Investors Mutual has more than tripled in value. That's why he's so happy. Now Investors does not wish to imply that you can make a fortune overnight. But the fact remains — a lot of people have made a lot of money through Investors Mutual. Why don't you start this simple, modern way to invest in Canada's leading industries? You can do so with a deposit of \$500 or as little as \$15 a month. Shouldn't you see the Man from Investors today?
